MINUTES OF THE MEETING OF THE BOARD OF REGENTS
MURRAY STATE UNIVERSITY
August 6, 1971

The Board of Regents of Murray State University, Murray, Kentucky, convened in regular quarterly meeting on August 6, 1971, in the Board Room, in the Administration Building, on the campus of the University, at 10:00 a.m., C.D.T.

Mr. Joseph M. Whittle was in the chair, presiding as Vice Chairman, and upon call of the roll the following answered present: E. G. Adams, H. Glenn Doran, Charles E. Howard, Graves Neale, Harry Lee Waterfield, Joseph M. Whittle, M. D. Hassell, Tom O'Dell.

There were absent: Chairman Wendell P. Butler.

Present also for the meeting were: Dr. Harry M. Sparks, President; Mrs. Patsy R. Dyer, Secretary of the Board; and Dr. Thomas B. Hogancamp, Vice President for Administrative Affairs.

It having been determined that a quorum was present for the transaction of business, the meeting was called to order.

Dr. Hogancamp opened the meeting with prayer.

Minutes of the Meeting of the Board of Regents held on July 13, 1971, Approved

There being no additions or corrections to the Minutes of the Meeting of the Board of Regents held on July 13, 1971, the Chairman waived the reading of the Minutes and declared the Minutes approved as received.

Agenda

President Sparks presented the following Agenda:

VII. Student Health Insurance Program

Recommendation: In keeping with the recommendation of the Insurance Committee, I recommend that Murray State University accept the bid submitted by the Continental Casualty Company for the Student Health Insurance program for the period August 28, 1971, through August 27, 1972.

VIII. Murray State University Group Insurance Policy

Recommendation: In keeping with the recommendation of the Insurance Committee, I recommend that we renew our Group Insurance Policy with Investors Heritage Life Insurance Company for another policy year commencing September 1, 1971.

IX. Official Naming of the Fine Arts Building

Recommendation: Approximately a year ago, we discussed the naming of the Fine Arts Building, and I recommend that at this time we name the combined structures the Price Doyle Fine Arts Center; the art gallery, the Clara M. Eagle Gallery; and the recital hall, the Richard W. Farrell Hall.

X. Report on the Interim Study Commission of the Legislative Research Commission Meeting.

Respectfully submitted,
/s/ H. M. Sparks
President

Report of the Committee on Credits, Certification, and Graduation, Approved

The following persons have completed all requirements for graduation and were granted degrees on August 6, 1971, and August 31, 1971:

Those receiving degrees on August 6, 1971, are as follows:

Bachelor of Science

James Allen Abernathy
James Michael Adams
Amin Kiran Kiritkumar
Dorothy Jeanne Baker
Timothy George Barter
Patricia Lee Beckwith
Preston Berman
Catherine Elizabeth Berry
Bruce Alan Blubaum
Ronald Gene Bondurant
Janet Ann Brown
Margaret Rose Bryan
Jerry Eugene Burnett
Larry Dee Call
Patricia Dycus Callender
Thomas Louis Carter
Earl Edward Cazel
Janice Lee Chaney
Gail McClure Cherry
William Robert Chipman

Julie Louise Chumbler
Malinda B. Colburn
Starla Ann Collier
Larry Joe Conrad
Katherine Converse
Stanley Troy Cook
Linda Gail Copley
Halsey D. Cory, III
Carol Ann Crawford
Daniel Lee Davies
Lionel Thomas Davis
Donald Jackson Dismore
Lynn Edward Doores
Rickie Lynn Douglas
Charles Stanley Easley
Carolyn Clifton Eddy
Michael W. Ethridge
Wilma Hyde Eubanks
Leann Jane Evans
Mary Elizabeth Farnum

Bachelor of Science (Cont.)

Donald Cruse Fisher
 Douglas R. Foland
 Anne Marie B. Forlenza
 Beverly Sparrow Fulks
 Josephine Furnari
 Douglas F. Gafford
 Ann Denise Galassi
 John Delaney Gallagher
 Russell Louis Grainger
 Willis E. Green
 Vicki Diane Greenfield
 Diane Louise Tucker Griffith
 Thomas Jacob Grimsley
 Lynn Allan Grogan
 James Dale Guthrie
 Marian Eileen Ann Hagel
 Susan Norris Hall
 David Wall Hazlewood
 Larry Wayne Heavrin
 Richard Henson
 John Peter Heuser
 Janet Faye Higdon
 Robert J. Hite, Jr.
 Sharon Bouland Hite
 Michael Wayne Hogan
 Haley Lee Hook, Jr.
 Cynthia Sawyer Howard
 Linda Carol Huffman
 Chester L. Humphrey
 Allen Edward Jackson
 Jo Ann Sullivan Jackson
 Phillip Hollis James
 Susan Elizabeth James
 Brenda C. Jessup
 Stanley Arthur Jones
 Donald Pike Kavanaugh
 William Linn Keeling
 Len C. King
 Karen Ann Lane
 Mary Lou LeVan
 Norma Jean Lewis
 Grace Lynn Lofton
 Diana M. Lounsbury
 Robert McConnell
 Penny McNeill
 Joel Norris McPherson
 Jerry McCallum McWherter
 Wanda Sumner Meadows

Virginia Murphy Harmeyer

Mr. Waterfield moved that the Board approve the Report of the Committee on Credits, Certification, and Graduation and extend congratulations to those receiving degrees. Dr. Howard seconded and the motion carried unanimously.

Resignations, Terminations, and Retirements, Accepted and Approved

In keeping with the recommendation of the President and as stated in Item III of the Agenda, Mr. Doran moved that the Board accept and approve the resignations, terminations, and retirements. Mr. Adams seconded and the motion carried unanimously.

Leaves of Absence, Granted

Dr. Howard moved that the Board grant the requests for leave of absence without pay as stated in Item IV of the Agenda. Mr. Doran seconded and the motion carried unanimously.

Adjustments and Transfers, Approved

Dr. Hassell moved that the Board approve the adjustments and transfers as stated in Item V of the Agenda. Mr. Doran seconded and the roll was called on the adoption of the motion with the following voting: Mr. Adams, aye; Mr. Doran, aye; Dr. Howard, aye; Mr. Neale, aye; Mr. Waterfield, aye; and Mr. Whittle, aye.

Employment including Graduate Assistants, Approved

In keeping with the recommendation of the President, Mr. Waterfield moved that the Board approve the employment of persons listed in Item VI of the Agenda at the salary indicated. Mr. Adams seconded and the roll was called on the adoption of the motion with the following voting: Mr. Adams, aye; Mr. Doran, aye; Dr. Howard, aye; Mr. Neale, aye; Mr. Waterfield, aye; and Mr. Whittle, aye.

Student Health Insurance Program

Upon the recommendation of the Insurance Committee and the President, Dr. Howard moved that Murray State University accept the bid submitted by the Continental Casualty Company for the Student Health Insurance program for the period August 28, 1971, through August 27, 1972. Mr. Neale seconded and the motion carried unanimously.

Fine Arts Center, Named

Dr. Hassell moved that the combined structures of the Fine Arts Building be named the Price Doyle Fine Arts Center, that the art gallery be named the Clara M. Eagle Gallery, and that the recital hall be named the Richard W. Farrell Hall. Mr. Neale seconded and the motion carried unanimously.

Group Insurance Policy

Upon the recommendation of the Insurance Committee and the President, Mr. Adams moved that the Murray State University Group Insurance Policy with Investors Heritage Life Insurance Company be continued for another policy year commencing September 1, 1971. Mr. Neale seconded and the roll was called on the adoption of the motion with the following voting: Mr. Adams, aye; Mr. Doran, pass; Dr. Howard, aye; Mr. Neale, aye; Mr. Waterfield, pass, and Mr. Whittle, aye. Motion carried.

Report on the meeting with the Interim Study Commission of the Legislative Research Commission

President Sparks reported that on July 28, a meeting was held on the campus with the Interim Study Commission and that Senator Gibson Downing presided. Dr. Gilbert Mathis, Professor of Economics at Murray State, reported on a study being made regarding money spent in the Commonwealth by non-resident students.

Dr. Sparks stated that he felt the meeting was advantageous and that the Commission was receptive to the problems of Murray State University. He further stated that he believed the Commission would be cooperative in seeking solutions to the problems.

The Board discussed student enrollment and student activities. It further discussed service opportunities of regional universities and the financial problems of higher education and possible solutions to these problems.

Report of the Thomas P. Norris Student Loan Fund, Received

Mr. Adams moved and Mr. Doran seconded that the Report of the Thomas P. Norris Student Loan Fund be received. Motion carried unanimously.

Report of the National Defense Student Loan Fund, Received

Mr. Adams moved and Mr. Doran seconded that the Report of the National Defense Student Loan Fund be received. Motion carried unanimously.

Annual Report of the President, Received

1970-71
Report of the President
to the Board of Regents
Murray State University

FORWARD

1970-71 has proven to be another signal year in the history of Murray State University. Great pride was taken in the dedication of Regents Hall, a dormitory for women, and in the occupancy of Faculty Hall, our newest and largest classroom building. The largest class in the history of the University was graduated. This year, primarily due to the limitation of out-of-state enrollment, the University for the first time failed to attract more new students than were graduated.

To you, the Board of Regents, goes our appreciation for your efforts and careful appraisal of policies affecting our University. Outstanding among these were the Academic Calendar Year change and the decision to make Reserve Officers Training elective.

Very keenly did the University feel the great loss of its beloved friend, Dr. Marvin O. Wrather, Executive Vice President, who passed away in September 1970.

With each success and not-quite-success, we pause to reevaluate our programs and services. I believe that we can point with pride to our improved communication with students, faculty, and administrators, to the improvements in the quality of our instructional program, to increased effort in interesting outstanding students to attend Murray State, and to our improved system of providing assistance and better service to these students.

We are convinced that 1971-72 will provide increased opportunities for greater growth at Murray State University.

Respectfully submitted,
/s/ H. M. Sparks
President

THE STUDENTS

Enrollment

Murray State continues to grow at the upper level division--a 2% increase over 1969. However, for the second consecutive year, we have had a slight decline in total enrollment. It is anticipated that this trend will continue in 1971 with a further decrease of 2% to 3%. Some significant causes for this decrease--some already affecting and other pending--are as follows:

1. Virtually a static population in the region
2. Fewer high school graduates in the state of Kentucky this year than in past years
3. Increased enrollment in Community Colleges in Kentucky and surrounding states
4. The entrance of the University of Louisville into the Kentucky State System and particularly the development of Jefferson Community College reversing the enrollment trend in Jefferson County.
5. The development of Northern Kentucky State College as part of the State System.

- 6. Imposition of the 20% out-of-state maximum on undergraduate enrollment in the fall of 1973
- 7. Economic uncertainties
- 8. Out-of-state fees--particularly students from Western Tennessee, Southern Illinois, and Southeastern Missouri.

*-X or I

Correspondence and Extension Courses

Enrollment for correspondence courses on June 30, 1971, was 341. Total enrollment for the year was 816.

Study centers were held at Louisville, Clinton, Hickman, Hopkinsville, Paducah, Mayfield, Marion, Morganfield, Owensboro, Princeton, Madisonville, and Henderson. Forty-seven classes were taught to 751 graduates, 172 undergraduates, and 49 auditors for a total of 972 students.

Outlook for 1971-72

Undergraduate Admissions for Fall, 1971

New Freshmen	1644
Transfers	513
Re-admissions	292
Total as of June 30, 1971	2449

Admissions for beginning freshmen are approximately 14% above last year, with transfers and re-admissions down 13%. Total undergraduate admissions eligible to enroll for fall represent a 3% increase over same date last year.

SERVICES

Student Financial Aid

In 1970-71, the Norris Student Loan Fund and the University Student Employment Program were transferred to the Student Financial Aid Office.

A summary of participants and funds for each program follows:

<u>Program</u>	<u>Number of Participants</u>	<u>Total Amount</u>	<u>Average Grant or Loan</u>
Nat'l. Defense Student Loan	1,026	\$606,075	\$590
Norris Student Loan	402	56,936	
Nursing Loan	70	31,775	454
Cuban Student Loan	4	2,650	
Educational Oppr. Grants	361	161,650	448
Nursing Scholarships	56	37,967	678
Student Employment	1,332	623,425	1.60 p/hr.

The National Defense Program continues to be a very popular and effective loan program and a major source of funds for assisting our students. It is interesting to note over the past two calendar years that a 34% increase in collections has occurred--(1969--\$89,975) and (1970--\$121,313).

The Norris Loan Fund is a very important part of the University's total student financial aid operation. The program permits a student with an urgent need; and with the ability to repay in a short time, funds which can be obtained in a minimum of time.

Federal Work-Study and University Student Employment Program

The centralization of the student employment program has provided a better service to the student body and has eliminated the necessity of the various departments having to contact two different offices in regard to student employment.

Approximately one-half of the 1,332 employees were on the Federal Work-Study Program. The rate of pay was \$1.60 per hour. In addition to on-campus employment, there were 9 agencies employing students off campus under the Federal Work-Study Program.

The Student Financial Aid Office recommended a total of 1,570 student loans for the year. The maximum loan per year is \$1,500 and it is estimated that MSU students received in excess of \$1.5 million from participating banks, credit unions and savings and loan associations. The office furnishes information, counsels and assists students in seeking this type of financial aid. The office certifies the student's scholastic standing, major, home address, school classification, and expected date of graduation.

Of the 1,570 applications processed by the office, 1,003 were from Kentucky and 567 were out-of-state students.

We feel the past year was a productive year in providing a service and financial assistance to our students. We are anticipating another record year of activity for 1971-72. Also anticipated for 1971-72 is MSU's participation in the Law Enforcement Education Program. This new program of loans and grants could be a great asset to the University.

With rising educational costs and continuing inflationary trends, a much larger percent of our total enrollment will have to rely on Student Financial Aid Programs to enter or to continue their education.

Housing and Dining

Housing

The occupancy rate in residence halls for 1970-71 was 73.8% of capacity. A primary reason for this low occupancy rate is the lack of out-of-state students. Single freshmen and sophomores are required to live in University housing with the exception of local students and commuters.

Over 600 private rooms were rented to students during the Spring Semester. This trend is expected to continue with more students desiring to pay additional rent in order to reside in a room alone. Maintenance and discipline problems are greatly reduced in areas where private rooms are rented.

We will be offering some variety in the types of housing for 1971-72. A residence hall with self-regulated hours for women will be initiated. Women having their parent or guardian's consent will be permitted to regulate their own hours. A security guard will be stationed at the lobby to allow women to come and go after the regular dorm closing hours. Women residing in this hall will be charged an additional \$15 per semester rent in order to pay for the additional employees required in this experiment.

Two men's residence halls will be set up as freshman men's halls and staffed with graduate and upperclassmen in guidance. Personal attention will be given this group in an attempt to permit them to have a better entry into college life. In addition, it is hoped that a more wholesome attitude toward the residence halls and programs will be a by-product of this effort.

Cablevision outlets are presently being installed in the residence halls which will enable us to offer this service to students residing on-campus. Installation will be at no cost to the University.

In 1970-71, a new program was inaugurated to aid women residents by Student Counselors who lived and worked in each residence hall. They were young women selected for their ability to work with their peers and to recognize the needs of a fellow student. They do not pretend to be professionals, they simply listen to their fellow students, visit with the lonely, and if further help is needed they refer the student, through the Dean of Women, to a counselor on the professional level.

Food Service

During the fall semester, 2,045 meal tickets were sold and during the spring semester, 1,526 meal tickets were sold. Food Service showed a gross profit of \$58,463.21 for 1970-71.

Library

Our book holdings, at 232,415 volumes, while not large enough for our graduate programs, is respectable. Since we became a university on July 1, 1966, our holdings have increased eighty-seven percent, moving from 124,467 to the present figure. The figure 225,000 as a book count is sometimes taken as a minimum figure for a university library. Not only have we increased our volume holdings, our record is good in building a quality collection of permanent value.

Reserve and Interlibrary loans are two important keys to the quality of study and research in a university. Just as more and more books are being circulated through reserve, so is there an increasing use of the nation-wide interlibrary loan system. In 1969-70, 667 requests were filled for faculty and graduate students. These requests rose in 1970-71 to 1,005 loans processed.

Technical processes, especially, Cataloging, has made great strides forward. All books to be cataloged have now been at least temporarily cataloged for immediate use thanks to the Bibliography Division which handles this operation backed by the Cataloging Department. In four years time, the Cataloging Division has increased its rate of permanent processing of books by almost 100% from about 11,000 to 21,969, the most books the division has ever cataloged in any one year. In addition to the 21,969 completely cataloged, 14,366 others have been prepared under a temporary cataloging system in order that the books may be used while awaiting the final processes.

Special Collections is essential in an institution with a large number of graduate level courses, for it brings together in one place all the special materials such as microfilm, university archives, and special collections. We are fortunate to have the collections of Jesse Stuart, Harry Lee Waterfield, and Robert A. (Fats) Everett.

Future goals should include an addition to the library, additional books to strengthen the holdings in all graduate fields, and special emphasis on building up our journal collections.

School Relations

A total of 4,518 students were contacted in 273 high schools and 124 students were contacted in 12 junior colleges. Eighty-two university faculty and staff members participated in the school visitation program.

The Scholarship Committee administered and awarded 118 subject-matter scholarships and 53 general scholarships.

Alumni

Murray State Alumni now number 17,692.

New Alumni clubs were planned and organized in Louisville and Madisonville and club activities were continued in Indianapolis, Washington, D.C., and Nashville.

The Alumni Office was the receiving and dispensing authority for the following fund drives and scholarship projects: General Alumni Association Program and Scholarships, sixteen \$500 Century Club Scholarships and one \$500 Distinguished Professor Award, Two Congressman Robert A. "Fats" Everett Memorial Scholarships of \$500 each financed by a permanent investment fund in the amount of \$20,000, one Dr. Liza Spann Scholarship for pre-medical and dental students of \$500 financed by a permanent investment fund in the amount of \$12,000, the Dr. Marvin O. Wrather Scholarship Fund Investment of \$12,179.07, and Dr. Ralph H. Woods Scholarship Fund for the Handicapped totaling \$12,000, the Joe Dyer Pool Scholarship Fund of \$1,429.50, and the E. Glenn Pace Scholarship Fund of \$200. 1970-71 donations for these funds exceeded \$30,000.

Murray State graduates receiving Distinguished Alumni Awards to date are John Fetterman '48, Journalism; Gene S. Graham '48, Journalism; J. Paul Hogan '42, Science; Dr. Forrest C. Pogue '31, History; and Joe E. Torrence '36, Government.

Placement

During the 1970-71 fiscal year, there were 46 school systems that visited the campus 49 times and interviewed 744 prospective teachers. There were 50 business and industry and governmental agencies that visited the campus 70 times and interviewed 710 prospective employees. Three universities visited the campus and interviewed 16 persons.

Many school system representatives stated their vacancies could be filled without leaving their offices. They indicated they were continuing recruitment trips to teachers trained outside of their local areas and because they had employed good teachers from Murray State in the past. Many industries came to the campus for recruitment visits purely for public relations and to keep their company name before the students; they did not have openings.

THE FINANCIAL REPORT

The following indicates a close estimate of income and expenditures for the Fiscal Year 1970-71. Our accounts will close on September 30, 1971, for the year ending June 30, 1971. A complete and detailed report of actual operations will be made soon after September 30, 1971.

INCOME

State Appropriation	\$ 8,491,473	55.4%

	\$15,301,582	100.0%

REPORT FROM THE SCHOOLS

Applied Sciences and Technology

Several significant gains were made in the School of Applied Sciences and Technology during the past year. Notable among these were faculty professional improvement, an increase in faculty research and publications, and numerous special programs and activities designed to relate more specifically to the needs of the students and the people in this geographic area. Additionally, there was a modest increase in enrollment on both the undergraduate and graduate levels.

The Department of Agriculture expanded course offerings in undergraduate and graduate programs through the addition of ten new courses. There was a significant increase in faculty research and publications. Numerous agricultural and farm related programs were conducted at the University Farm and Carman Livestock Pavilion. A highlight in program development was the addition of the Horsemanship Curriculum. Eight horses for instructional use were donated to the University during the past year with an estimated market value of some \$30,000. Some 151 students completed courses in Horsemanship during the year.

In the Department of Home Economics, several courses were restructured and two new courses were added. Several special projects were conducted, including the development of a State-Wide Curriculum Guide for Home Economics programs in the secondary schools, a Food Service Workshop for School Lunch Personnel, A Gainful Employment Seminar, and a special seminar entitled, "Educational Media and Teaching Strategies to Reach the Disadvantaged." Enrollment in Home Economics increased five percent over the previous year.

The Department of Industrial Education expanded its undergraduate and graduate offerings through the addition of twelve new courses and the implementation of a program in Construction Technology. Several faculty research projects and special programs were conducted during the year. Among these were: The Identification and Quantification of Competencies Needed by Vocational Teachers in Selected Occupational Fields, a workshop in Industrial Arts Curriculum Planning, Communications Studies in High and Very High Portions of the Radio Spectrum, and High Velocity Metalworking: Explosive Welding, Forming and Compaction of Powdered Metals. One hundred forty-one classes were offered in the Department of Industrial Education during the year with an enrollment of 2,198 students, or approximately a three percent increase over the previous year.

Significant gains were noted in the Vocational and Technical Education program. A twenty-five percent increase in class enrollments occurred during the past year. Several special programs were conducted. Among these were: An EPDA Institute to Prepare Vocational Education Administrators, a Seminar on Systems Approach to Teaching Electronics and Electricity, an In-Service Institute to Prepare Coordinators and Principals of Vocational Extension Centers and Area Vocational Schools, and a Functional Industrial Training Program in Cooperation with the Union Carbide Corporation, Paducah Division. Eighty-nine people were prepared for employment in industry as mechanical and electrical draftsmen, instrument mechanics, and welders during the past year.

The Department of Nursing graduated its fourth class of forty-four students with baccalaureate degrees in nursing in June, 1971. All baccalaureate degree graduates of the first three classes have passed the State Board Examination. Student enrollment in the Department of Nursing continues to increase. Additional clinical experiences are being sought in the Christian County Health Department. Approval has been granted the Department of Nursing by the State Health Department for utilization of facilities in the Graves County Health Department. An effort will be made to secure use of clinical facilities in the Paducah area for general medical-surgical nursing for the coming year. Gains have been made in professional improvement of the nursing faculty, and all upper class nursing students have attended and participated in state and national professional nursing conferences.

Arts and Sciences

From data submitted by the Registrar's Office, a comparison is made between the Fall Semester 1969 and the Fall Semester 1970. The School of Arts and Sciences showed a decrease of 5.2%, with subject matter fluctuations from a-23.8% to +75.2%.

The following new programs have been implemented:

<u>Department</u>	<u>Program</u>
Sociology & Anthropology	B.S. in Social Work
Sociology & Anthropology	Certification in School Social Work (Undergraduate and Graduate)
Sociology & Anthropology	Sociology & Social Work emphasis for M.A. Ed.
Physics & Astronomy	B.S. in Computer Science
Romance Languages	M.A. in French (Replaces M.A.T. French)

Completion of Faculty Hall, occupied in February 1971, has provided excellent quarters for all departments in Arts and Sciences. It was possible to move all operations from Carraway House and East Hall, and these have been razed. Following are the present locations of the various departments moved.

English - Offices 7th floor Faculty Hall Classrooms 4th & 5th floors, Faculty Hall
 History - Offices 6th floor Faculty Hall Classrooms 2nd floor Faculty Hall
 Mathematics - Offices 6th floor Faculty Hall Classrooms 3rd floor Faculty Hall
 Political Science - Offices 6th floor Faculty Hall Classrooms 2nd and 3rd floors
 Faculty Hall
 Sociology-Anthropology - Offices 5th floor Faculty Hall Classrooms 5th floor
 Faculty Hall
 Romance Languages - Offices 4th floor Faculty Hall Classrooms 1st floor
 Faculty Hall
 Speech - Offices, Classrooms 3rd floor Wilson Hall
 Germanic-Slavic Languages - Offices, Classrooms, 2nd floor East, Wilson Hall
 Philosophy - Offices, Classrooms, 2nd floor South, Wilson Hall

Good office and classroom furniture has been provided for all departments.

The new Radio-TV Studio in the Fine Arts Building hopefully will be available in September 1971.

Library holdings have been increased greatly during the year, and almost all departments have added appreciably to their collections. Good progress has been made toward adequate library facilities for both undergraduate and graduate programs.

Substantial equipment and instructional aids have been secured by other departments, some of whom had been in great need of such equipment.

Encouragement will continue to be given to all departments to acquire the materials and equipment needed for most effective instruction.

Dr. Ronald Cella has served effectively and efficiently as Assistant Dean of the School of Arts & Sciences.

The Department of Sociology and Anthropology, with its Division of Social Work, has made excellent progress during its first year, under the leadership of the Chairman, Dr. John Watson. Mr. Wallace Baggett has directed the Social Work program effectively. An enrollment increase of 75.2% for the fall semester 1970 as compared with the fall of 1969 occurred. Two experienced Ph.D. sociologists have been employed for 1971-72, and the 1971-72 faculty will consist of five in Sociology and three in Social Work.

The Department of Philosophy had an enrollment increase of 13.9% during the fall semester 1970, its first year as an autonomous department. The selection of Dr. Wayne Sheeks as Chairman in 1971-72 should improve the departmental effectiveness.

During 1970-71, the Department of History functioned with an Acting Chairman. Dr. Riley Venza performed effectively and has been elevated to Chairman in 1971-72.

The Department of Romance Languages made excellent progress in many ways under the leadership of Dr. John Ferguson, and he will serve as Chairman during 1971-72.

The establishment of an autonomous Department of Political Science with Dr. Farouk Umar as Chairman is a progressive move. Course offerings have been revised, and it is expected that two or three faculty members will complete the Ph.D. during the year.

A 24-month contract relative to the blue and channel catfish fishery in Kentucky was initiated under the direction of the Department of Biological Sciences.

Fifty-five Bachelor of Science and two Master of Science degrees were conferred in chemistry and geology. Research facilities and potential have been enhanced by the addition of both laboratories and equipment. Upper division Geology enrollment has increased, and a separate department of Geology may become necessary by July 1972.

The Communications graduate program continues as the largest in Kentucky; Master's degrees were conferred upon four in Journalism and 17 in Speech. Undergraduates, with faculty sponsorship, have received national awards. The Creative Writing Workshop, directed by Jesse Stuart, is in its third summer.

One M.A. in English was completed during the year, and ten persons are at the thesis-writing stage. Graduate teaching assistants were used for the first time, and the results were very satisfactory.

Dr. James Matthai, Chairman of the Geography Department, was honored by Alpha Chi as Distinguished Faculty Member of the Year. Dr. Stanford Hendrickson has been named Foreign Student Advisor.

A concert by Mr. Wolfrom from Germany was sponsored by the Germanic and Slavic Languages Department and the German Club.

The Health, Physical Education, and Recreation Department co-sponsored a cheerleading clinic with the International Cheerleading Foundation. Mr. Bailey Gore is project co-ordinator for a comprehensive community recreation program, with training of qualified voluntary leadership, to be developed in Murray and Calloway County.

Dr. Robert F. Sexton of the History Department is on leave to serve as Director of the Frankfort Legislative Internship Program.

The first M.S. degree in mathematics was awarded this year.

Sixty-four Second Lieutenants were commissioned. One hundred and forty-nine entered the advanced program in the fall. Five students were enrolled in the ROTC Flight Program. The rifle and pistol teams gained national recognition for the fifth consecutive year, the women's team capturing first place honors and setting a record in the process. Two team members were named for the second time to the All-American team.

Mr. William Taylor has been appointed University Ombudsman. He also received the Alumni Association's Distinguished Professor Award, 1970. Dr. William Smith served a second year as director for the First District Science Fair. The department's research capabilities were increased as the Physical Acoustics Laboratory became fully operational. A Molecular Physics Laboratory is being developed.

For the 15th consecutive year the National Science Foundation is supporting Summer Science Institutes for Secondary school teachers at Murray State University. Two institutes are in successful operation in 1971, with 111 teachers from 17 states participating. The programs are supported by grants totaling \$99,845. Departments of Biological Sciences, Chemistry and Geology, and Physics are cooperating in the program.

Business

Enrollment

The enrollment in the School of Business decreased slightly during 1970-71.

<u>Fall</u>	<u>Spring</u>	<u>Total</u>	<u>% of Change</u>
4339	3927	8266	05.2%

The nature of the enrollment has changed and we now have a larger enrollment in the upper division and graduate courses than in the lower division courses.

<u>Course Level</u>	<u>Fall</u>	<u>Spring</u>	<u>% of Total</u>	<u>Total</u>
100	640	461	13.3%	1101
200	1242	1164	29.1%	2406
300	1327	1187	30.4%	2514
400	47	47	1.1%	94
500	884	842	20.9%	1726
600	199	226	5.2%	425

Significant Program Changes

The Business Administration core requirements were changed. All students must now complete two courses in statistics and an upper level course in Economics. A lower level introductory course was dropped. In addition to strengthening the program this was one of the reasons for the enrollment decrease. This decrease will be offset when these students become Juniors.

Publications

The School of Business published two issues of BUSINESS DYNAMICS during the year. Due to the response we have had to BUSINESS DYNAMICS we would like to make this a quarterly publication, but are unable to do so because of limited funds.

Other Significant Developments

The School of Business faculty is working diligently to become accredited by the American Association of Collegiate Schools of Business. Each faculty member contributed significantly during this past year in gathering background data and preparing preliminary reports. Our tentative time-table for accreditation is the academic year 1973-74. However, we have two major weaknesses which must be overcome in order for us to achieve our goal. We must increase the number of faculty members with doctorates, and we need to increase and upgrade our library holdings in business. In order to become accredited, 40% of our faculty must hold the doctorates by the fall semester, 1972, and 50% by the fall semester, 1973. Unfortunately, there is not an oversupply of doctorates in business as there is in some academic areas. In most areas of business (except economics) demand for doctorates still exceeds the supply.

The School of Business supported two Faculty In-Service Training Programs during the year. During the fall semester there was a ten-week program in Statistics, and during the spring semester an eight-week program in Quantitative Methods. These training programs were an attempt to upgrade our faculty. A few faculty members from departments outside the School of Business also participated.

An experimental evaluation of the faculty by students was made during the spring semester. The results of this evaluation and the instrument used are now under study. We plan to change and improve the evaluation instrument and the method used. We plan to expand this evaluation to include not only faculty but Department Chairmen, the Dean, and all supporting staff.

Education

The 1970-71 school year was a rewarding and successful year for the School of Education. New programs and courses were added to keep pace with the needs of a rapidly changing educational world, and many existing programs and courses were modified and changed to allow for more flexibility in meeting these needs.

The program to prepare junior college teachers was expanded to include both masters and specialist programs. A total of 16 stipends were granted to students in the program during 1970-71, and 11 candidates were graduated from the program in June and August, 1971.

The two-year experimental program in individualized teacher education was concluded in the spring of 1971, with a total of 16 students completing the program. The decision was made to continue the operation of the pilot program for another year, and approximately 35 students have been selected to begin the two-year sequence in the fall of 1971.

The federally funded Upward Bound program, involving 85 high school students from the eight-county area surrounding Murray, has been carried during this year. A total of 80 of the 85 students were retained in the program through the summer of 1971.

For the second consecutive year, Murray State has received senior fellowships from the Bureau for the Education of Handicapped. This year the school was invited to submit plans for block grants geared to innovative teacher training programs and recruitment to the field of special education. The plan submitted by MSU's Division of Special Education was funded in the amount of \$15,000. This will allow the department to hire additional staff members and make extensive modifications to the existing academic and recruitment programs in special education.

Plans were completed during the year to effect the creation of a new department within the School. Effective July 1, 1971, the Division of Speech and Hearing and the Division of Special Education will merge to form the new Department of Special Education, with Dr. John Bartholomy serving as Chairman.

Preliminary planning sessions were held during the year to begin preparation of the NCATE self-study, and to prepare for the visit from the NCATE evaluation team in the spring of 1973.

The special services divisions of the School of Education have been particularly active during this past year. The scope and nature of these services has changed significantly over the past several years, and the positive contributions of these programs to the area serviced by Murray State University cannot be overlooked.

Diagnostic reading services for the public schools of this area were performed, with 112 children being tested and complete case reports sent to each school involved.

Remedial reading clinics were held during each semester with a total of 177 children enrolled in the reading programs.

A total of 199 MSU students were given one semester in developmental and speed reading by the clinical reading staff during the academic year.

A total of 207 individuals have received service through the Psychological Center from September, 1970, through May, 1971. It should be noted that a significant proportion of these cases have involved long-term therapy, requiring numerous counseling sessions.

There were 206 diagnostic cases requiring 325 man hours of consultation at the Speech and Hearing Center during the year. In addition, 358 therapy cases with 1,402 man hours were handled during the same period.

The University Testing Center conducted 137 individual counseling and testing sessions and administered national and large scale University tests to 2,173 individuals. In addition, the test scoring analysis service was provided for 127 different testing situations, involving 18,726 individual answer sheets. Veteran Administration Counseling service was provided for 15 individuals during the 1970-71 school year.

Enrollment figures for the Fall, 1970, and Spring, 1971, semesters indicate an increase of approximately 8.8% in student enrollment in course offerings.

New state certification regulations have had the effect of making all administrative and supervisory programs into post-masters degree programs. Consequently, the Masters degree or fifth-year graduate program in education is now directed toward the development of the master teacher, and specialized programs for school administrators are now largely sixth-year programs.

In February 1971, the Professional Services Board of the American Boards of Examiners in Speech Pathology and Audiology formally registered the Murray State University Speech and Hearing Clinic as well as the overall academic program. Murray State University was the first Kentucky state college or university to receive this level of professional recognition with respect to programs in speech and hearing.

Steps have been taken to begin a new program in instruction for the University Elementary School in the fall of 1971. Plans are to move from the self-contained classroom situation in the direction of incorporating various aspects of team, individualization, open school, and the multigrade approach to teaching. Each faculty member has visited at least one school or attended one workshop or clinic to begin to prepare for and obtain ideas for the new program in instruction.

Fine Arts

In its second year as a School, Fine Arts has sought to implement procedures and policies which would facilitate quality instruction and to reassess the present position and chart new directions for the various segments of the School. A great deal of time was spent in self-evaluation and projection. The results of these efforts will become increasingly evident in the years to come.

The faculty and students of the School of Fine Arts are a professionally active group. Continuing involvement with exhibitions, dramatic productions, recitals, concerts, and other artistic endeavors is an essential ingredient in the quality of the School and the lives of individuals who are involved.

The School of Fine Arts served as a pioneer in a Freshman Orientation program conducted at the School and departmental levels. This was highly successful in terms of student growth and development and was a significant factor in the adaptation of a new concept of Freshman Orientation for the entire University.

The Art Department spent considerable time working with a consulting team of professional administrators and in faculty and student committees to evaluate the department, its directions, and its administrative needs. Effective July 1, 1971, Dr. Gordon Plummer succeeded Miss Clara Eagle who retired as Chairman of the Art Department. The Art Department also continued its active involvement with the Title I program entitled "Cultural Enrichment in the Visual Art Through Community Action" and with the successful High School Art Honors Workshops. Departmental and individual efforts went into numerous exhibitions, consultations, and related professional involvements.

The Drama Division surpassed all previous attendance records for its schedule of excellent productions. The children's production played to about 2,700 children during its run. Further, the largest number of one-act

plays in Murray State University history was produced in May. The drama students continued their active involvement in puppet shows, underprivileged children's parties, and high school productions.

The baccalaureate programs of the Music Department were once again approved by the National Association of Schools of Music. The graduate program received initial approval during the past year. The Quad-State Music Festivals increased in scope for the twenty-third consecutive year; the Mid-America Music Festivals for Junior and Community Colleges were inaugurated; the Purchase Area Youth Symphony Orchestra achieved greater heights; the cooperative string program with the Murray Public Schools continued; and thirty-fourth annual production of Campus Lights provided educational experience for participants, entertainment for the public, and scholarships for freshmen. Other individual and group performances contributed much to the musical climate of the area.

Graduate

An effort was made to bring the regulations of the graduate program under closer direction of the Graduate Council. Specifically, procedures were adopted which called for Council approval of new courses and evaluation of new degree programs by outside specialists. New procedural methods were adopted for acting upon new programs and appointments to the graduate faculty.

Alternations were adopted in the following degree programs:

Master of Arts in French
 Master of Arts in Education (Elementary)
 Master of Science in Industrial Education
 Master of Science in Home Economics
 Master of Science in Speech and Hearing
 Master of Music Education

Additionally, the Comprehensive Examination, which most vitally affects the various Education programs, was altered.

The Graduate Council adopted the Master of Arts in Political Science; however, the implementation of the degree program is contingent upon the addition of new terminal degree faculty in the department.

ATHLETICS

The Department of Intercollegiate Athletics at Murray State University once again compiled a very impressive and successful record in varsity sports programs during 1970-71.

In men's varsity sport competition in the Ohio Valley Conference, one sport won a Conference Championship (golf). Four of our sports finished second, and six of our seven sports in Ohio Valley Conference competition finished in the first division of their respective league races. In addition, varsity soccer, which is not presently included in the Ohio Valley Conference sports agenda, completed a very successful season, winning the first Kentucky Intercollegiate Soccer Championship Tournament held at Louisville, Kentucky.

There were many outstanding individual achievements within the past year. Those most noteworthy are as follows:

1. Soccer captured the first Kentucky Intercollegiate Soccer Tournament Championship.
2. Coach Buddy Hewitt was voted Ohio Valley Conference "Coach of the Year" in golf.
3. Matt Haug, our outstanding football quarterback, was awarded a NCAA post graduate academic scholarship, one of only 30 throughout the country.
4. All Conference Players and Individual Championships

Doug Ford was selected to the All Ohio Valley Conference Football Squad.

We place two players on the All Ohio Valley Conference Basketball team, Les Taylor and Jimmy Young.

In track, Tommie Turner once again was the Conference Champion in the 440 and 220 yard dash of 46.4. The Mile Relay Team also won the Conference Championship.

The tennis team had three conference individual champions, Mike Whitty at the No. 2 position, Chuck Cooper at the No. 5 and Juha Niittyverta at No. 6.

In baseball, Steve Barrett was an All Conference Second Baseman, and finished nationally ranked among NCAA batters with an average of .388.

Chris Pigott was the medalist in the Conference Golf Tournament.

5. Our Conference Championship Golf team qualified for the NCAA National meet at Tucson, Arizona. They were the first Ohio Valley Conference team ever to be selected and they represented the conference well, finishing ahead of North Carolina University and Miami, Florida, two other representatives from the third NCAA District.
6. Tommie Turner won the NCAA Indoor 440 yard dash. In addition, he placed sixth in the NCAA Outdoor 440 yard dash. He also placed sixth in the National AAU Meet. He was selected as a member of the American Mile Relay Team to compete in the Pan American games.
7. Carla Coffey set a new national record in the 100 meter hurdles during the women's national track and field meet, Spokane, Washington. She also finished second in the 200 meter hurdle race in the same meet. Carla was selected to compete in the Women's olympic trials for the Pan American games.
8. Murray State's basketball team, which posted a 19-5 season, gained national recognition by being ranked in the AP "Top 20 Poll" for five consecutive weeks. Their highest ranking was 17th. Two members of the basketball squad were selected in the professional basketball draft, Hector Blondet by Portland of the NBA on the fifth round, and Ron Johnson by Baltimore of the NBA on the ninth round. Hector was also selected to compete for the Puerto Rican Olympic Team in the Pan American games.

PHYSICAL FACILITIES

The Physical Plant Department has continued to expand our preventive maintenance program having added regular checking and servicing of our larger electric motors, pumps, air handling units, emergency generators, and other critical pieces of equipment. A number of improvements have been made to the campus electrical distribution system, including the addition of a 5,000 KVA substation, which now permits our servicing the campus from various points, thus eliminating extensive electrical interruptions in case of power failures.

Work has continued on the campus landscape development and improvement program with extensive use of rose and flower beds adding color and beauty to the campus. Many new shrubs have been planted, and worn and eroded lawn areas are being re-established. Special emphasis is being given to completing and improving the landscaping and lawns in the center portion of the campus since the new construction in this area is now being completed.

A number of our personnel have attended training programs, workshops, factory schools, and short courses relating to their respective trades endeavoring to improve their knowledge and to stay up to date on the many and various technical and complicated types of equipment being designed into our new buildings.

The following lists a few of the major improvements to the University's physical plant performed by our forces in addition to their routine operational and maintenance duties:

1. Extensive repairs and redecorating of Wilson Hall
2. Repaired and painted exterior trim and windows in Wells Hall
3. Converted space in the front portion of the Fine Arts Building into laboratory and office space for the Art Department
4. Constructed a swine test litter shed on the Tucker farm
5. Razed the old Carraway and East Hall houses upon occupancy of Faculty Hall providing additional space for parking.

6. Repaired and painted interior of White and Richmond Halls

7. Sanded and refinished the Field House gymnasium floor.

Planning and Space Utilization

During the year two projects were completed--Faculty Hall and Regents Hall--and three other buildings were under construction. These were the Academic-Athletic Facility, Fine Arts Addition, and the General Services Building. It is anticipated that the Fine Arts Addition and the General Services Building will be occupied by the beginning of the Fall, 1971, Semester.

In addition to these projects, bids have been taken on the new Biological Station and construction will commence very shortly.

The University has acquired six parcels of property during the year in the area immediately west of the campus. This land is being used temporarily for parking until needed for expansion in the future.

Dr. Howard moved and Mr. Adams seconded that the Annual Report of the President be received. Motion carried unanimously.

Report on Vending Machine Operations, Received

Dr. Howard moved that the Report on Vending Machine Operations be received. Mr. Adams seconded and the motion carried unanimously.

Contract for Publishing SHIELD

Mr. Adams moved that upon receipt of additional information and a recommendation of the SHIELD Committee the President of the University be authorized to award a contract for publishing the 1972 SHIELD. Mr. Neale seconded and the motion carried unanimously.

Physician for Student Health Service

In reply to Dr. Howard's inquiry, Dr. Sparks stated that to date we have been unable to employ a physician for the Student Health Service.

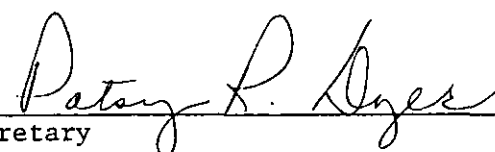

Biological Station

Dr. Hassell stated that bids have been received for the construction of the Biological Station and that the contract would be signed at 11:00 a.m., Monday, August 9, 1971.

Meeting Adjourned

Mr. Neale moved and the motion was seconded that the meeting be adjourned.

Chairman

Secretary
